#### JACK KELKE

##### Cross Country, Track and Field

##### Distance

##### Senior

Jack Kelke is a textbook example of what the NSCA All-American award represents. He arrives at every

strength and conditioning session prepared to work, bringing a positive attitude that elevates those around him. Jack consistently supports his teammates, stepping in to help whenever someone is struggling with an exercise or challenge. While he may not be the strongest athlete on our team, he is one of the most resilient and hardest working. Throughout multiple injury setbacks over the years, Jack has remained committed to the weight room and to improving himself. He embraces challenges rather than avoiding them and sets a daily standard for effort and consistency. If we had 25 athletes with Jack's mindset, our program would be even more successful. As a strength and conditioning coach, my goal is to prepare student-athletes for success beyond their playing careers. I have no doubt that Jack's work ethic, character, and leadership will continue to distinguish him long after his time at Michigan. ~Layne Phillips

One morning, Rylee arrived late to our 6:45 a.m. lift, because she had gone back to pick up teammates whose bus had not arrived. That small act reflects the type of teammate she is. Even during the summer months or while traveling internationally for academic or personal commitments, Rylee remains disciplined and committed to her training. A defining moment this year was watching her complete 315 pounds for five reps on hip thrusts, surrounded by teammates she has inspired through her leadership.
